

RESPIRATORY CARE

Name _____ Rotation Began (date) ___ (time) _____

Name of Preceptor _____ Rotation Ended (date) ___ (time) _____

Hospital _____ Total of Number of Hours this Shift _____

OBJECTIVES FOR RESPIRATORY CARE (Indicate number of times Accomplished)

- _____ 1. Perform aseptic suctioning of endotracheal tubes.
- _____ 2. Assist in care of tracheostomies.
- _____ 3. Observe/assist in monitoring/care of patients on mechanical ventilators.
- _____ 4. Discuss with preceptor types of ventilator systems in use on patients: including mode, control settings, use of PEEP/CPAP, and appropriate response to alarms.
- _____ 5. Operate oxygen delivery equipment and administer oxygen.
- _____ 6. Auscultate chest sounds (Indicate number of times auscultated)
 - _____ a. Rales
 - _____ b. Rhonchi
 - _____ c. Wheezes
 - _____ d. Friction Rubs
- _____ 7. Observe signs, symptoms, care of patients with common respiratory diseases found in prehospital setting. (Indicate number of cases observed)
 - _____ a. Emphysema
 - _____ b. Chronic Bronchitis
 - _____ c. Cardiogenic Pulmonary Edema
 - _____ d. Non-Cardiogenic Pulmonary Edema
 - _____ e. Asthma
 - _____ f. Pneumoniz/Pneumonitis
 - _____ g. Other _____
 - _____ h. Other _____
- _____ 8. Observe/assist with use of pharmacological agents in care of respiratory disease. (List)
 - a. _____
 - b. _____
 - c. _____
 - d. _____
 - e. _____
 - f. _____
- _____ 9. Observe effects of pharmacological agents administered.
- _____ 10. Administer nebulized bronchodilators using small volume nebulizer.
- _____ 11. Identify therapeutic action, indicates, and major side effects of patient medications using PDR.
- _____ 12. Observe/discuss with preceptor use of pulse oximeters.
- _____ 13. Observe/discuss with preceptor use of end-tidal carbon dioxide monitors.
- _____ 14. Observe/discuss with preceptor use of peak-flow measurements in patient assessment.

Signature of Preceptor _____
