

Fall 2016 - Intermediate Algebra

Instructor: Laura Franks

Email: lfranks@southplainscollege.edu

Office: 268-D **Telephone:** (806) 716-4036

Office Hours: T/TH: 3:35–5:20 & F: 8:00–12:30

Other times may be available by appointment.

Course Description: MATH 0320. INTERMEDIATE ALGEBRA. (3:3:1) Prerequisite: MATH 0315 (Beginning Algebra) or one year of high school algebra. This course is designed for the student who needs MATH 1314 or 1324. It includes factoring, fractions, linear equations in one unknown, graphs, systems of linear equations, exponents, radicals, and quadratic equations. Time in a math lab is required. This course will not satisfy graduation requirements. (Copied from the current SPC catalog.)

Textbook: Sullivan, M., Struve, K. R., & Mazarella, J. (2010). Elementary and Intermediate Algebra, Third Edition. New Jersey: Pearson Prentice Hall. ISBN 978-0-321-88011-6.

The hardcopy is optional. MyMathLab will be required.

Course Objectives: Successful completion of this course should reflect mastery of the following objectives. Chapter and section numbers are indicated in parentheses.

1. Define, represent, and perform operations on real and complex numbers. (9.9)
2. Recognize, understand, and analyze features of a linear equation and a function. (8.3, 8.4 including topics from 3.3, 3.4 and 3.5)
3. Recognize and use algebraic (field) properties, concepts, procedures (including factoring), and algorithms to combine, transform, and evaluate absolute value, polynomial, rational, and radical expressions. (6.1, 6.2, 6.3, 6.4, 6.5, 7.1, 7.2, 7.3, 7.4, 7.5, 9.1, 9.2, 9.4, 9.5, 9.6)
4. Identify and solve absolute value, polynomial, rational, and radical equations. (6.6, 7.7, 8.7, 9.8, 10.1, 10.2)
5. Identify and solve absolute value and linear inequalities. (8.6, 8.7)
6. Model, interpret, justify mathematical ideas and concepts using multiple representations. (6.7, 7.8, 8.2, 8.5, 9.8)
7. Connect and use multiple strands of mathematical situations and problems, as well as in the study of other disciplines. (The word problems in Chapters 6, 7, 8, 9, and 10.)

Texas Success Initiative (TSI): The Texas Success Initiative is a state program designed to ensure that all Texas institutions provide placement testing, personal advisement and appropriate instruction to students to enhance their opportunities for success in their college studies. All new students entering Texas colleges and universities are required to take a placement test prior to enrolling in college-level courses, unless exempt from testing under specified state standards (i.e., scores on ACT, SAT or TAKS). Testing will indicate whether a student possesses adequate basic college-level skills in reading, writing and mathematics necessary to begin an undergraduate program of study. (Copied from the current SPC catalog.)

Attendance: *Attendance and effort are the most important activities for success in this course.* Class attendance may be taken at any time during the class period, so please do not be late or leave early. You may be dropped from this course with a grade of X or F if you are absent four consecutive classes or if you exceed six absences throughout the semester. Be on time and turn off any cell phones or pagers before entering the classroom.

Assignments: Homework assignments are based on graded problems worked online via MyMathLab. I encourage you to purchase your textbook immediately and use the Access Code Packet (bundled with your textbook) to register for this class online. If you were enrolled in a Beginning Algebra or Intermediate Algebra class that used MyMathLab, you do not need a new packet.

Follow these steps for a painless registration procedure:

Before you start, you will need:

- A student's access code is found in your MyMathLab Student Access Kit that comes with the book.
- The course ID number will be given to you the first day of class.
Course ID number for your course: **franks69962**
- Or you can purchase online an access code using a credit card.
- A valid email address that you check on a regular basis.
- SPC Zip Code: 79336

To register and enroll in a pearsonmylabandmastering course (same as Course Compass which has been changed):

1. Go to www.pearsonmylabandmastering.com and click the Register button for student and follow instructions to register. I suggest you bookmark this if you are using your personal computer.
2. After you have register, enter the Login Name and Password you created during registration.
3. You will be taken to MyLabandMastering – the online learning environment for MyMathLab. From this page, simply click the name of your course to begin exploring MyMathLab.

If you want to register as a previous user, use the following instructions:

1. Click on Login. Do not enter login name or password.
2. Click on students register.
3. Click on continue a course, re-take a course, or switch to a different course section.
4. Enter user name and password from previous semester and course ID number.
5. Click on login.

OR you can:

1. Log in using username and password from a previous time.
2. Under name of previous MyMathLab course, click on enroll in a new course.
3. Put in new course ID number.

Important Note: The homework problems assigned online via MyMathLab are required and are the only homework grades given in this class. If you do not have a personal computer or your computer is in serious need of an upgrade, there are many computer labs on the Reese Center campus, the Levelland campus, and the ATC which have very liberal hours. These problems on-line (homework) are chosen as representative of the basic concepts presented in the sections. These few questions will not adequately prepare you for the unit test. A more comprehensive assignment for each section is located in the textbook. The textbook exercises will not be taken up or graded, but should be used to ask questions in class over the assignment. Before completing the online homework for a grade, you should work the textbook problems for a more complete understanding of the topics.

**Grading:**

Homework	30%
Unit Exams	60%
Final Exam	10%

Grading Scale:

A	90-100
B	80-89
C	70-79
D	60-69
F	59 or below

A grade of C (70) or better is required to advance to the next course. Although your grade in this course will not be used in calculating your GPA, your grade is used to determine academic status for financial aid.

This course and its grade will be recorded on your official transcript.

Exams: There will be 4 unit tests and a comprehensive final exam. Dates for the exams are given on the course outline. If for any reason you are unable to take an exam at the designated time you must contact me *prior* to class time. Make-up exams will be given at the discretion of the instructor.

Tutoring: Free tutoring is available in room M116 of the Math Building in Levelland, or room 208 in building 2 at the Reese campus, or in the computer lab at the ATC. Digital versions of tutorial videos can be viewed on your personal computer on Blackboard, <http://spc.blackboard.com>. Login using “mvideos” and password “mvideos”. Click on Math-Math Videos and locate the appropriate course and topic in which you are interested.

Supplies: You will need pencils, a scientific calculator, notebook paper, graph paper, and a 3-ring binder. Calculators on cell phones or other electronic devices with a computer algebra system will not be allowed during testing.

Student Conduct: You are expected to be respectful to others in the classroom. Please assist in maintaining a classroom environment conducive to learning. Any student disrupting the learning environment will be asked to leave and may be dropped from the course.

Disability: Students with disabilities, including but not limited to physical, psychiatric, or learning disabilities, who wish to request accommodations in this class should notify the Disability Services Office early in the semester so that the appropriate arrangements may be made. In accordance with federal law, a student requesting accommodations must provide acceptable documentation of his/her disability to the Disability Services Office. For more information, call or visit the Disability Services Office at Levelland Student Health & Wellness Center 806-716-2577, Reese Center (also covers ATC) Building 8: 806-716-4675, Plainview Center Main Office: 806-716-4302 or 806-296-9611, or the Health and Wellness main number at 806-716-2529.

Equal Opportunity: South Plains College strives to accommodate the individual needs of all students in order to enhance their opportunities for success in the context of a comprehensive community college setting. It is the policy of South Plains College to offer all educational and employment opportunities without regard to race, color, national origin, religion, gender, disability or age.

Diversity: In this class, the teacher will establish and support an environment that values and nurtures individual and group differences and encourages engagement and interaction. Understanding and respecting multiple experiences and perspectives will serve to challenge and stimulate all of us to learn about others, about the larger world and about ourselves. By promoting diversity and intellectual exchange, we will not only mirror society as it is, but also model society as it should and can be.

Fall 2016 - Intermediate Algebra
Tentative Course Outline

<u>Week</u>	<u>Day</u>	<u>Date</u>	<u>Lesson</u>
1	Tuesday	August 30	WELCOME!
	Thursday	September 1	6.1 The Greatest Common Factor/Factoring by Grouping
2	Tuesday	September 6	6.2 Factoring Trinomials Part 1
	Thursday	September 8	6.3 Factoring Trinomials Part 2
3	Tuesday	September 13	6.4 Factoring Special Products
	Thursday	September 15	6.5 Summary of Factoring & 6.6 Solving Equations by Factoring
4	Tuesday	September 20	6.7 Modeling and Solving Problems with Quadratic Equations
	Thursday	September 22	Exam 1
5	Tuesday	September 27	7.1 Simplifying Rational Expressions & 7.2 Multiplying/Dividing Rational Expressions
	Thursday	September 29	7.3 Adding/Subtracting Rational Expressions (Like Denominator) & 7.4 Finding the LCD & Forming Equivalent Rational Expressions
6	Tuesday	October 4	7.5 Adding/Subtracting Rational Expressions (Unlike Denominator)
	Thursday	October 6	7.7 Solving Rational Equations
7	Tuesday	October 11	7.8 Models Involving Rational Equations
	Thursday	October 13	Exam 2
8	Tuesday	October 18	8.2 Relations
	Thursday	October 20	8.3 Introduction to Functions & 8.4 Functions and Their Graphs
9	Tuesday	October 25	8.5 Linear Functions and Models
	Thursday	October 27	8.6 Compound Inequalities

SOUTH PLAINS COLLEGETM

10	Tuesday	November 1	8.7 Absolute Value Equations /Absolute Value Inequalities
	Thursday	November 3	Exam 3
11	Tuesday	November 8	9.1 Square Roots & 9.2 Roots and Rational Exponents
	Thursday	November 10	9.4 Simplifying Radical Expressions
12	Tuesday	November 15	9.5 Adding/Subtracting/Multiplying Radical Expressions & 9.6 Rationalizing
	Thursday	November 17	9.8 Solving Radical Equations & 9.9 Complex Numbers
13	Tuesday	November 22	Exam 4
	Thursday	November 24	Happy Thanksgiving!
14	Tuesday	November 29	10.1 Completing the Square
	Thursday	December 1	10.2 The Quadratic Formula
15	Tuesday	December 6	Final Exam Review
	Thursday	December 8	Final Exam Review
16			Final Exam

*Last Day to Drop: November 17th
