SOUTH PLAINS COLLEGE

STEM SUMMER CAMP

9TH-12TH GRADE

JUNE 12-16

Participate in interactive, fast
paced, hands-on activities.

ROBOTICS

Build mBot Ranger robots. Use computer
programming language to manipulate. Show
your skills in robot challenges and obstacles

BIOLOGY

Explore pathogens and immune responses
with printed 3D models. Discover unknown
viruses via gel electrophoresis.

FORENSICS

Uncover evidence using fingerprinting and
blood splatter detection methods. Solve
the mystery!

GEOLOGY

Travel to Carlsbad Caverns on a day trip to
discover geologic formations and learn
about our part in preservation.
