

**RCRA TRAINING FOR HAZARDOUS WASTE GENERATORS**  
**REVIEW QUIZ**

**Name** \_\_\_\_\_ **Date** \_\_\_\_\_

*The following questions are provided to check how well you understand the information presented during this program.*

1. Wastes listed in the EPA's \_\_\_\_\_ are considered to be "acutely hazardous."
  - a. F-List
  - b. K-List
  - c. P-List
  - d. U-List
  
2. Which of the following is **not** one of the four characteristics exhibited by "characteristic hazardous waste" materials?
  - a. ignitable
  - b. organic
  - c. corrosive
  - d. reactive
  
3. According to the program, what is the most critical issue employees must understand as part of their hazardous waste training?
  - a. proper use of personal protective equipment
  - b. appropriate bonding and grounding procedures
  - c. safe material handling practices
  - d. how to respond to an emergency
  
4. A Conditionally Exempt Small Quantity Generator is a facility that generates less than \_\_\_\_\_ kilograms of hazardous waste per month.
  - a. 100
  - b. 1,000
  - c. 6,000
  
5. What is the accumulation limit for an acutely hazardous waste in a satellite accumulation area?
  - a. one pint
  - b. one quart
  - c. one gallon
  
6. One and a half feet are generally considered adequate aisle space for unobstructed movement of personnel and emergency equipment in a container storage area.
  - a. true
  - b. false
  
7. For large quantity generators, waste storage containers must not be stored in a central accumulation area for more than \_\_\_\_\_ days.
  - a. 30
  - b. 60
  - c. 90
  
8. Conditionally Exempt Small Quantity Generators are not required to obtain EPA ID numbers that are listed on Hazardous Waste Manifests.
  - a. true
  - b. false
  
9. Changing practices and processes to reduce or eliminate the generation of hazardous waste is known as \_\_\_\_\_.
  - a. hazardous waste treatment
  - b. source reduction
  - c. reprocessing
