

Official ATI TEAS Study Manual Purchase Options

- SPC Levelland and Lubbock Downtown Center Libraries – can check out for free, but limited number of copies available
- www.atitesting.com/teas-prep - the study manual by itself is \$25, but ATI also offers other study packages on this website!
- SPC Levelland Bookstore – about \$42

I recommend to purchase the newest 2022-2023 ATI Study Manual, as it is updated to the current TEAS Version 7. ATI Testing has stated that past TEAS Version 6 manuals will still prepare you for the Version 7 exam, so you do not need to spend any additional money if you have already purchased and are using a Version 6 manual!

All unofficial manuals and manuals older than Version 6 are not recommended to use for this current version.
