

South Plains College
Common Course Syllabus: BIOL 1413-151-451
Revised 01/07/2026 for Spring Semester 2026

Department: Biology

Discipline: General Biology

Course Numbers: 1413-151-451

Course Title: General Zoology (lecture + lab)

Format: Completely Online

Instructor: Dr. Harriet L. Strickland

Campus: Levelland Campus

Office: Science Building S86

Office Telephone: **806-716-2306**

Communicate with Instructor by SPC email or in Science Building:

Levelland Campus Office, New Science Building, Room S86 located near front doors

In-person Office Hours: Mondays & Wednesdays: 2:00-4:00pm
Tuesdays: none
Thursdays: 3:00-4:00pm
Fridays: 9:00am-12:00pm

You can always Email with questions & concerns:

E-mail: hstrickland@southplainscollege.edu

Instructor will respond to student emails throughout the day Monday-Friday, usually within a few hours, certainly within 24 hours or less.

Instructor may respond to student emails during evening, weekend, or holiday hours, so please don't hesitate to attempt contact—response time may be quicker than you think.

Do NOT contact Instructor with Blackboard Messaging system. Use SPC E-mail.

Course Description: In this course, we will study fundamental biological concepts relevant to animals, including systematics, evolution, structure and function, cellular and molecular metabolism, reproduction, development, diversity, phylogeny, and ecology. Laboratory activities will reinforce these concepts to ensure comprehension.

Prerequisite: None. Must be TSI Compliant in Reading, completed prior to taking this course.

Credit: 4:3:3 (4 semester credit hours: 3 lecture contact hours/week: 3 laboratory contact hours/week)

This course partially satisfies a Core Curriculum Requirement:

Life and Physical Sciences Foundational Component Area (030)

Core Curriculum Objectives addressed:

- **Communications skills**—to include effective written, oral, and visual communication
- **Critical thinking skills**—to include creative thinking, innovation, inquiry, and analysis, evaluation, and synthesis of information
- **Empirical and quantitative competency skills**—to manipulate and analyze numerical data or observable facts resulting in informed conclusions
- **Teamwork**—to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal

Required Textbooks include an e-Text and a Computer Simulation Lab

You have already paid for access to the eBook (electronic version of required book), AND for access to the Computer Simulated Lab with your tuition & fee payment if you are enrolled in section 151. If you are enrolled in Dual Credit section 451, then the cost was covered as part of the Dual Credit Program, and there is no payment due.

The required McGraw-Hill textbook and lab simulation program are:

Connect 3P Inclusive Access Online Access for **Zoology Connect**, Text **Zoology** by Miller, 12th ed, 2023, McGraw-Hill Publishing plus **Connect Virtual Labs Simulation Program**, 2023, McGraw-Hill Publishing.
ISBN: 281-85606-426-19

- An electronic version will work fine for this online course **and is already included, already paid for** with the SPC TexBook Program (see details below).
- You will access the e-text book and the Computer Simulated Lab program in Blackboard.
- You will gain access to the Computer Simulated Lab program as you begin your first Connect Virtual Lab assignments during the first week of Spring Semester.
- If you want to opt-out, receive a book rental and/or program access refund, and purchase or rent the books and access code for the simulated lab program independently or from another vendor for the semester, see instructions below.

SPC TexBook Syllabus Statement

If you are enrolled in the course Section 151, then this course is part of your TexBook program, which means you don't need to purchase a textbook or access code for this course. You have already paid for access. TexBook is the required content (either an eBook or online Courseware) for your course and is provided for you via the Bibliu platform from Day 1 of class (Mon, Jan 12).

- **Cost of TexBook:** this required content is provided as part of a Program called 'Inclusive Access', which means that content is provided for you at the lowest price available from the publisher. The cost of this is included in your tuition.
- **How to access your digital content** with the McGraw-Hill Publisher through a direct link provided within your Blackboard Course Contents, or via Bibliu: you can access your material via the Bibliu link inside your Blackboard Course, or directly via the Bibliu app. If you have issues with this, please contact Dr. S, or the Bookstore Manager or Bibliu Support.
- **The Bibliu platform:** you can use the Bibliu platform to enhance your learning experience, with features including highlighting, notes and reading text aloud. For more details and support on how to use Bibliu, please visit the [BibliU support pages](#), or contact Bibliu support via the email: support@bibliu.com
- **You can Opt-Out of the TexBook Program**, up until the Opt-Out deadline, via the banner displayed when you open the Bibliu platform. Remember that Opt-Out deadlines vary by term. If you Opt-Out, the fee will be refunded to your account; however, you will lose access to the low-price option, and will need to purchase the content by a different method.

Useful contacts:

1. **Bibliu Support:** email support@bibliu.com
2. **Bookstore Manager:** Christian Bruno - christian.bruno@bibliu.com
3. **Bookstore Text Coordinator:** Trish Wells - patricia.wells@bibliu.com

Required Course Materials:

- All the following are required: **regular access (daily or every-other-day) to:**
 - a laptop or desktop computer, or you may use a school computer on SPC campuses,
 - reliable high-speed Internet access, or use Wi-Fi on school campus or other locations,
 - Blackboard,
 - **SPC Email (NOT personal email) to receive email from Instructor & SPC or Course Announcements and to interact with fellow student as assigned for group projects,**
 - Microsoft Office (download from mySPC), Adobe Reader (download from Adobe.com),
 - Audio and video capabilities (for watching and listening to course content and videos),
 - **weekly access to**
 - a **printer** for worksheet assignments, (you may use a school printer on SPC campuses, including one printer in the new Science Building Learning Center)
 - **and a Smartphone or other digital camera** (for taking photos of completed worksheets before submission)
 - **or a Document Scanner** (if no digital camera is available) that can save completed hand-written worksheets for study use and Blackboard submission,
 - **or a pdf conversion program** (like Adobe Acrobat) to allow conversion, completion, and re-formatting worksheet assignments for online submission.
 - a Web camera and microphone if student wishes to video conference office hours using Collaborate in Blackboard.
 - Students should **maintain a file or notebook of completed worksheet assignments** for study and review in preparation for Quizzes and Unit Tests.
- **Access to a Smartphone *cannot replace course requirement* for access to computer, reliable Internet, Blackboard, and printer.**
- ***Smartphones or mobile devices cannot be used for taking Blackboard Quizzes NOR Unit Tests NOR for reliable submission of worksheet assignments.***
- **In response to Texas HB 1481 (see below), which will affect some students enrolled in section 451 of this online BIOL-1413 course, all submission deadlines for this online course have been moved to late evenings during the week, and/or to weekends, for both sections 451 and 151.**
- Under **Texas House Bill 1481**, all students in Texas public K-12 schools are prohibited from using cell phones, tablets, smartwatches, earbuds like AirPods, or other devices capable of telecommunication or digital communication while on school grounds during school hours. Students should still be allowed to have access to laptops or computer labs. School districts or students will need to find headphones that comply with state law for audio.

Student Learning Outcomes: Upon successful completion of this course, students will:

Lecture and Lab:

- 1) Describe the reasoning processes applied to scientific investigations and thinking.
- 2) Describe the characteristics of life and the basic properties of substances needed for life.
- 3) Identify the substrates, products, and important chemical pathways in respiration.
- 4) Describe the structure of cell membranes and the movement of molecules across a membrane.
- 5) Identify the chemical structures, synthesis, and regulation of nucleic acids and proteins.
- 6) Identify the principles of inheritance and solve classical genetic problems.
- 7) Describe the unity and diversity of animals and the evidence for evolution through natural selection.
- 8) Describe modern evolutionary synthesis, natural selection population genetics, micro and macroevolution, and speciation.
- 9) Describe phylogenetic relationships and classification schemes.
- 10) Identify the major phyla of life with emphasis on animals, including the basis for classification, structural and physiological adaptations, evolutionary history, and ecological significance.
- 11) Compare and contrast the structures, reproduction, and characteristics of animals.
- 12) Describe basic animal physiology and homeostasis as maintained by organ systems.

Also in Lab:

- 13) Apply scientific reasoning to investigate questions and utilize scientific tools such as microscopes and laboratory equipment to collect and analyze data.
- 14) Use critical thinking and scientific problem-solving to make informed decisions in the laboratory.
- 15) Effectively communicate the results of scientific investigations.

Online Course Content included in this Course:

Blackboard is the primary source for all course information. **Students need to access Blackboard daily.** Students should take Blackboard Quizzes and Unit Tests using a laptop or desktop computer, **NOT** using the Blackboard application (app) on a Smartphone. Specific course materials available on Blackboard will include announcements from the instructor, official Blackboard Quizzes and Unit Tests with deadlines, online assignments with deadlines, changes to the course schedule, study aids, slides and recordings from PowerPoint lectures and laboratory demonstrations, virtual simulated laboratory exercises, grades on assignments and tests, etc.

SPC E-mail: Each student has an SPC E-mail account and should check it regularly (daily or every-other-day). Instructors and the administration will use this SPC E-mail address to contact the student, not a student's private, personal E-mail address.

Tutoring Resources:

SPC Tutors for Biology will be able to help you in this General Zoology course

Tutoring is FREE for all currently enrolled students. Make an appointment or drop-in for help at any SPC location or online! Visit the link below to learn more about how to book an appointment, view the tutoring schedule, and view tutoring locations.

<http://www.southplainscollege.edu/exploreprograms/artsandsciences/teacheredtutoring.php>

Brainfuse

You also have 180 FREE minutes of tutoring with Brainfuse each week, and your hours reset every Monday morning. Log into Blackboard, and click on the tools option from the left-hand menu bar. Click on the Brainfuse link and you will automatically be logged in for free tutoring. You may access Brainfuse tutors during the following times:

Monday – Thursday: 8 pm-8 am

6pm Friday – 8am Monday morning

For questions regarding tutoring, please email tutoring@southplainscollege.edu or call 806-716-224

Course Evaluation/ Student Performance Assessment:

Student Performance Assessment using Examinations, Blackboard Quizzes and Group Project Assignments:

- **Four major exams (Unit Exams or Unit Tests) will be given during the semester (including the Final Exam = Unit Test #4).** These exams will assess student knowledge of the covered material, and will be administered online.
- Unit Tests #1, 2, and 3 will be scheduled throughout the semester. Unit Test #4 (the Final Exam) is scheduled according to the SPC Spring Semester Final Exam Schedule, and will be scheduled according to SPC Exam Week Schedule. Each Unit Test will be worth 100 points. **Students may NOT drop their lowest test or exam score.**
- Unit Tests plus Blackboard Quizzes plus one Group Project Assignment are weighed in the final Gradebook calculated so that they make up approximately 60% of the Course Grade.
- Each Unit Test will cover material from lecture, lab, and assigned readings/video links/homework assignments. The exam format may include multiple-choice questions, true-false questions, definitions, matching, labeling, short answer questions, and essay questions, with laboratory examples and identifications when appropriate.
- The final exam (Unit Test #4) is NOT comprehensive—it only covers material presented since the end of Unit Test #3 material. So, Unit Test #4 is “just another” Unit Test, even though it is also called a Final Exam.
- Students should NOT miss a Unit Test or Blackboard Quiz—due dates will always be provided. Any student who misses a Unit Test or Blackboard Quiz will have a zero-score entered for that item (**except for “excused-absence” criteria below, AND correct notification of instructor within 24 hours of due date**).

(Examinations, Blackboard Quizzes, and Group Project Assignments, continued):

- To avoid technical issues during online Blackboard Unit Tests and Quizzes, students should take each test or quiz as early as possible and within normal business hours. If a student has problems at 2AM, there will be no services available for assistance.
- **In order to be considered for eligibility to make-up a missed Unit Test or Blackboard Quiz, the student must meet “excused-absence” criteria AND the student (or a representative) must contact the instructor within 24 hours of the exam due date.**
- “Excused-absence” criteria include:
 - a serious illness,
 - COVID-19 related Isolation with positive COVID-19 test results (see COVID-19 Statement) and, if coincides with “quiz/testing due dates” or “lab and homework due dates”, then must be accompanied **by illness that prevents online work,**
 - a legitimate emergency,
 - an official college trip,
 - or the death of an immediate family member
 - in each case, **the appropriate confirmation information** must be provided to Dr. S.
- All quizzes in this course (called Blackboard Quizzes or BB Quizzes) will be taken online. Blackboard Quizzes will be administered throughout the semester, and due dates will be provided within the corresponding Weekly Learning Materials. Quizzes may be related to pre-assigned readings from the Miller Text, lecture material, posted readings in Blackboard, homework assignments, and lab material.
- Unit Tests and Blackboard Quizzes (which will be administered exclusively online) will use the Blackboard Learning System, will be “open-books” and “open-notes” and “open-web searches”, **BUT there is a time limit for completing each quiz, and quiz questions are randomized and answers (if multiple choice) are randomized, so students are advised to have studied beforehand.**
- Also, please note that not all “web searches” provide reliable information, nor do all “web searches” match evidence-based scientific knowledge. Students should study materials provided in lecture, reading assignments, laboratory exercises, and any study-aids or additional resources provided within this course when preparing for graded quizzes and tests.
- Internet searches for answers to quiz or test questions may not provide the student with correct answers. Some quiz questions specifically ask a student to use material as presented in lecture or lab in order to correctly answer a question and earn credit for that question.
- Although students are authorized to use their textbooks, notes, lab books & notes, and web searches while taking an online Blackboard Quiz, each student must personally take each quiz/test by themselves without the aid of another student, or a former student, or any human or virtual assistant, or a tutor, and this includes without the aid of text-messaging or instant-messaging or using Blackboard Collaborate Ultra, unless a student has received approval for specific Special Accommodations.

(Examinations, Blackboard Quizzes, and Group Project Assignments, continued):

- Using the aid of another person or virtual assistant when taking a Unit Test or Blackboard Quiz is considered Cheating (see Policy above) unless a student has received approval for specific Special Accommodations through the SPC Disability Services Office (see Policy below).
- **In order to be considered for eligibility to make-up a Blackboard Quiz or Unit Test, the student must meet “excused-absence” criteria AND the student (or a representative) must contact the instructor within 24 hours of the Quiz or Testing due date.**
- Each Blackboard Quiz will be worth 25 points, and the one Group Project Assignment will be worth 75 points.
- **Grades for the Group Project Assignment cannot be dropped, and the Assignment cannot be made-up. Late Group Project Assignments will NOT be accepted.**
- **The lowest two (2) Blackboard Quiz grades will be dropped before the final course average is calculated at the end of the semester.** If a student misses one or more Blackboard Quiz and does not meet “excused absence” criteria for make-up opportunity, and does not notify the instructor within 24 hours of the quiz due date, then those first two grades of zero will become that student’s dropped quiz grades for the semester. No student can drop more than two Blackboard Quizzes.
- Please make sure to use a reliable computer on a reliable Internet connection to take all Blackboard Quizzes and Unit Tests. Only in rare occurrences will the Instructor reset a student’s quiz or test attempt. If the Instructor resets a student’s testing, it will be “One-Time Only” per semester.
- **Smartphones or mobile devices cannot be used for taking tests, quizzes, or reliable assignment submission.**

Student Performance Assessment using Homework or Lab Assignment Worksheets and Connect Virtual Simulated lab assignments:

- Blackboard Homework and other Worksheets assignments, and Virtual, simulated lab assignments (Connect by McGraw Hill) will be scheduled throughout the semester
- **The lowest (2) scores for Virtual, simulated lab assignments (Connect by McGraw Hill), PLUS the lowest (2) Worksheet scores from other Homework or Lab Worksheet assignments will be dropped when calculations are made at the end of the semester for the final course average grade.** If a student misses one of the above and does not meet “excused absence” criteria **AND** does not contact the instructor within 24 hours of the assignment due date, **then that grade of zero will be recorded, and that may become one of the lowest scores for Connect labs or for other Homework or Lab worksheets.**
- Homework and Lab Assignment Worksheets and Connect Virtual Simulated Lab assignments are weighted in the final Gradebook calculated so that they make up approximately 40% of the Course Grade.

(Homework or Lab Assignment Worksheets and Connect Virtual Simulated lab assignments, continued):

- Late Homework or Lab Assignment worksheets may be accepted for a limited time after the due date (except those assignments and exercises scheduled due beginning the week of testing when worksheet answers might be posted) if *the student receives permission from the Instructor ahead of the due date and time. Permission may or may not be given for late submissions, depending upon documentation for Excused Absence, and pre-approved late work may lose up to 25% grade value depending upon circumstances.*

*****The last day for a student to drop themselves from this course is
Thursday, April 30, 2026.**

Note: The instructor reserves the right to modify the course syllabus and policies, the lecture and laboratory schedules, the test and quiz dates, and the assignments or due dates, as well as notify students of any changes, at any point during the semester.

Grade Summary:

Category	Approx. Available Points	Approximate % of Final Grade
Unit Exams (4)	4 @ 100 points = 400	
Official Blackboard Quizzes	Best 4 out of 6 @ 25 points = 100	Weighted to equal Approximately 60% of Final Grade (Notice that these points are <u>WORTH MORE</u> than Homework, Lab, or Virtual Lab Points)
Group Project Assignment	One project @ 75 points	
Homework and Lab Worksheet Assignments	Best 16 out of approx. 18 @ approx. 10-15pt	Weighted to equal approximately 40% of Final Grade
Weekly Virtual Connect Labs	Best 23 out of approx. 25 @ approx. 10-15pts	
	Approx. 1000 total	100%

(Grade Summary, continued):

Final Letter Grade Policy:

*Course Average: Each point earned in Exams & Quizzes is weighted to equal approx. 60% of Final Course Grade, and each point earned in Assignment/ Worksheets/ Labs is weighted equal approx. 40% of Final Course Grade. If a student's final course grade is less than one half a percentage point away from the next higher letter grade, the instructor may consider giving the higher letter grade, related to performance on the Final Exam and bonus points/extra credit that may be gained on unit exams.

Final Letter Grade	Course Average*
A	90 – 100%
B	80 – 90%
C	70 – 80%
D	60 – 70%
F	0 – 59%

Policies, Procedures, and Rules:

1) Class Attendance Policy:

- Attendance will be measured by a student's ability to **consistently log on to Blackboard each week** AND to **COMPLETE the assigned work as scheduled** (assignments, quizzes, and unit tests). Failure to participate, complete and submit assignments and testing by due dates will be recorded as an "absence" and "zero grade", unless and until "excused absence" criteria are met (see below).
- Students are officially enrolled in all courses for which they pay tuition and fees at the time of registration. Should a student, for any reason, delay in reporting to a class after official enrollment, absences will be attributed to the student from the first class-meeting.
- Students who enroll in a course but have "Never Attended" by the official census date (**Wednesday, January 28, 2026, for Spring Semester 2026**), as reported by the faculty member, will be administratively dropped by the Office of Admissions and Records. A student who does not meet the attendance requirements of a class and does not officially withdraw from that course by the official census date of the semester, may be withdrawn administratively from that course and receive a grade of "X" as determined by the instructor.
- CAUTION:** If it is determined that a student is awarded financial aid for a class or classes in which the student never attended or participated, **the financial aid award will be adjusted** in accordance with the classes in which the student did attend/participate and the student will owe any balance resulting from the adjustment.
- "Excused-absence" criteria** include: a serious illness, COVID-19 related Isolation **with illness**, a legitimate emergency, an official college trip, or the death of an immediate family member— in each case, **the appropriate confirmation information** must be provided.
- WITHDRAWAL POLICY:** The last day to withdraw/drop with a grade of "W" is **Thursday, April 30, 2026**. ***It is the student's responsibility to withdraw from this course. Otherwise, a student will be assigned their earned letter grade at the end of the course (even if that grade is a D or an F).*** Course averages will be updated frequently, and guidance will be provided upon request to help students decide whether they need to drop the class or not. For more information regarding drops/withdrawals please visit: [**https://www.southplainscollege.edu/admission-aid/apply/schedulechanges.php**](https://www.southplainscollege.edu/admission-aid/apply/schedulechanges.php)

(Class Attendance Policy, continued):

- **You should expect to spend at least 10-12 hours studying and completing course work each week in order to be successful in this course. That equals at least two hours per day every day. More time will be required if a student is striving for a higher grade (planning to gain admission to professional school or transfer into a competitive program).**

2) Student Code of Conduct Policy:

- Any successful learning experience requires mutual respect on the part of the student and instructor. Neither instructor nor student should be subject to others' behavior that is rude, disruptive, intimidating, aggressive, or demeaning. Student conduct that disrupts the learning process or is deemed disrespectful or threatening shall not be tolerated and may lead to disciplinary action and/or removal from the classroom or virtual meeting, or administratively withdrawn from the course.
- As future professionals, students are to communicate with each other in a professional & civil manner. At all times we will treat each other with dignity and respect. That means no profanity or conversations that the instructor believes are inappropriate. The instructor has the final say for what may be considered "inappropriate". If there are problems in this area, a student may be asked to leave the classroom or the virtual meeting.

3) Academic Integrity Policy

It is the aim of the faculty of South Plains College to foster a spirit of complete honesty and a high standard of integrity. The attempt of any student to present as his or her own any work which he or she has not honestly performed is regarded by the faculty and administration as a most serious offence and renders the offender liable to serious consequences, possibly suspension. Each student is expected to abide by absolute honesty. Infractions will result in penalties subject to an assignment of a grade of "F" for the course or expulsion from the College. Students should also regard civility online as a requirement to remain on the roll in class.

Cheating: Dishonesty of any kind on examinations or on written assignments, illegal possession of examinations, the use of unauthorized notes during an examination, obtaining information during an examination from the textbook or from the examination paper of another student, assisting others to cheat, alteration of grade records, illegal entry or unauthorized presence in an office are examples of cheating.

Complete honesty is required of the student in the presentation of any and all phases of course work. This applies to quizzes of whatever length, as well as to final examinations, to daily reports and to term papers.

(3) Academic Integrity Continued):

- **Cheating violations** include, but are not limited to, the following:
 1. Obtaining an examination by stealing or collusion;
 2. Discovering the content of an examination before it is given;
 3. Using an unauthorized source of information during an examination, quiz, or homework assignment;
 4. Entering an office or building to obtain unfair advantage;
 5. Taking an examination for another or assisting another during test taking;
 6. Altering grade records;
 7. Copying another's work during an examination ***or on a homework assignment;***
 8. Rewriting another student's work in Peer Editing so that the writing is no longer the original student's;
 9. Taking pictures of a test or quiz, test or quiz answers, or someone else's paper.
 10. Modifying, altering, or distributing any course materials presented by the instructor (see Copyright Notice below).
 11. Violations regarding ChatGPT and other AI (see below).

Plagiarism: Offering the work of another as one's own, without proper acknowledgment, is plagiarism: therefore, any student who fails to give credit to quotations or essentially identical expression of material taken from books, encyclopedias, magazines and other reference works, or from the themes, reports or other writings of fellow student, is guilty of plagiarism.

- **Plagiarism violations** include, but are not limited to, the following:
 1. Submitting a paper that has been purchased, borrowed, copied, or downloaded from another student, an online term paper site, or a mail order term paper mill;
 2. Cutting and pasting together information from books, articles, other papers, or online sites without providing proper documentation;
 3. Using direct quotations (three or more words) from a source without showing them to be direct quotations and citing them; or
 4. Missing in-text citations.
 5. Violations regarding ChatGPT and other AI (see below).

4) Copyright Notice Policy:

All material presented by the instructor in this course is copyright protected. **The material presented by the instructor may not be modified or altered in any way. You have permission to print out one copy of any material presented by the instructor for this course** (ex. course information sheet, contact information, weekly checklists, worksheet assignments, posted reading assignments). The one copy must only be used for your personal educational use during this semester. The material may not be altered or modified in any way. **The material may not be distributed in any way.** You have permission to download the same material to your computer hard drive or other medium in order to print out the material needed. Any material downloaded may not be altered or modified in any way. **The downloaded material may not be distributed in any way.** If any course material is found on other websites, this becomes **an act of academic misconduct** and will be dealt with appropriately following the guidelines of the college concerning academic integrity.

5) Technical Difficulties Policy and Procedures:

Lost/Corrupt/Disappeared Files:

- You should keep/save a copy of each Homework or Lab Worksheet assignment (take a photo or scan) that you will submit (NOT the Connect virtual, simulated exercises), on a personal computer, smartphone, or external disk. Use this copy for study purposes in case your original file or hardcopy worksheet is lost or corrupted.
- In the event of any kind of failure (e.g., Blackboard server crash or virus infection, student's own computer crashes, loss of files in cyberspace, file in wrong format, etc.) or any contradictions/problems, the Instructor may/will request you to resubmit the file into Blackboard.
- In other words, if you submit a document but it is not received correctly into Blackboard (lost in cyberspace) or cannot be graded due to format error or file corruption, you need to resend it, corrected, with little or no “downtime” in regard to the timeline for submission.
- If you experience technical difficulties, please refer to the Class Resources section in Blackboard or use Help with Blackboard or Help with Connect Virtual Labs and contact the instructor.
- All SPC campuses are expected to have internet and computer access for students throughout the semester. This link <http://www.southplainscollege.edu/emergency/wifi-resources.php> indicates where Wi-Fi access is available on SPC Campuses.
- Please notify the instructor immediately of these difficulties. Only in rare occurrences will the Instructor reset a student's quiz or test attempt. If the Instructor resets a student's testing, that will be “One-Time Only” for the semester.

6) Privacy Statement:

The federal law guaranteeing student privacy is the policy of this professor as well as that of SPC. This means that the instructor will not discuss a student's grade with anyone other than that student (which means that the instructor will NOT discuss a student's grade with parents, guardians, friends, etc.)

7) Special Accommodations, Disabilities Statement:

Students with disabilities, including but not limited to physical, psychiatric, or learning disabilities, who wish to request accommodations should notify the Disability Services Office early in the semester so that the appropriate arrangements may be made. In accordance with federal law, a student requesting accommodations must provide acceptable documentation of the individual's disability to the Disability Services Office. For more information, call or visit the Disability Services Office at Levelland (Student Health & Wellness Office) 806-716-2577, Lubbock Centers (located at the Lubbock Downtown Center) 806-716-4675, or Plainview Center (Main Office) 806-716-4302.

****Special Accommodations that you may have taken for granted at your previous school do NOT automatically transfer to SPC. Please contact the Offices above for help.**

8) Additional Syllabus Statements:

South Plains College policies concerning Intellectual Exchange, Disabilities, Non-discrimination, Title IX Pregnancy and Parenting Accommodations, CARE (Campus Assessment, Response, and Evaluation), Campus Concealed Carry, COVID-19, Student Identification Verification Pictures, and AI (Artificial Intelligence) can be found here:
<https://www.southplainscollege.edu/syllabusstatements/>
