The assignments in this class will be deadline driven. You must keep track of deadlines and submit work when it is due. Do NOT assume that I will move deadlines for you unless you contact me.

If you do not participate in class, in any form, for a minimum of 3 weeks without any communication, and you are earning a solid "F", you may be administratively withdrawn from the class. You may contact me by phone, e-mail, or Collaborate. But you must stay in contact with me.

Students are officially enrolled in all courses for which they pay tuition and fees at the time of registration. Should a student, for any reason, delay in reporting to a class after official enrollment, absences will be attributed to the student from the first-class meeting.

Students who enroll in a course but have "Never Attended" by the official census date, January 29th, as reported by the faculty member, will be administratively dropped by the Office of Admissions and Records. A student who does not meet the attendance requirements of a class as stated in the course syllabus and does not officially withdraw from that course by the official census date of the semester, may be administratively withdrawn from that course and receive a grade of "X" or "F" as determined by the instructor. Instructors are responsible for clearly stating their administrative drop policy in the course syllabus, and it is the student's responsibility to be aware of that policy.

Deadlines- ALL projects will have deadlines. You need to get used to deadlines that exist in the working world. Late assignments may or may not be accepted depending on the assignment and the reasons for missing the deadlines. Due dates for missed deadlines will need to be discussed with the professor.
