

Math 0000.001 ADN Math

Purpose of Course: The acquisition in precise form of those ideas or concepts in terms of which the quantitative thinking of the world is done. Correct use of whole numbers, fractions, decimals, percentages, measurements, and short methods for rapid calculations will be presented. This course is for Associate Degree in Nursing and Diploma Program nursing students only. This course will provide a mathematical background for the nursing students and instruct in the application of mathematics of pharmacology problems.

Textbook: *Calculation of Drug Dosages A work text 12th edition by Ogden and Fluharty. Necessary materials can be printed.* A four function calculator is also recommended.

*****Attendance counts as clinical hours so missed days will be penalized as such.**

Instructor: Alma F. Lopez
