Course Syllabus
MATH1314-200 – College Algebra
Fall 2016

Instructor: Kiyomi Kaskela

Office: RC268F   **E-mail:** kkaskela@southplainscollege.edu

Office Phone: 806-894-9611 ext. 2742

Office Hours:

Monday	Tuesday	Wednesday	Thursday	Friday
9:55 – 10:30 AM	10:50 – 11:30 AM	9:55 – 10:30 AM	10:50 – 11:30 AM	9:30 – 11:00 AM
12:20 – 12:55 PM	12:20 – 12:55 PM	12:20 – 12:55 PM	12:20 – 12:55 PM	
	3:20 – 3:55 PM		3:20 – 3:55 PM	
	6:45 – 7:30 PM		6:45 – 7:30 PM	

Also by appointment

Prerequisites: 2 years of high school algebra or Math 0320, TSI compliance
Supplies: a scientific calculator (All of the work must be done without a graphic calculator.)

Textbook (recommended): College Algebra,9th edition, Larson, Cengage Learning, 2014

Lecture Notes and Homework Assignments: You are responsible to print and bring lecture notes to class each week. The last page of the lecture note is the homework assignment. These can be accessed on Blackboard. (Class Homepage → Handouts → Unit 1…)

Course Specific Instructions: There are video tapes of many topics available in the room M116 in the math building at the Levelland campus. These tapes can be viewed in the lab, or checked out and taken home for viewing. These videos can also be viewed online. Go to Blackboard, for the log in name and password type "mvideos". You can then find the appropriate course and the topic in which you are interested.

Tutoring: Students can obtain tutoring at no charge in Room 116 on the South Plains Campus in Levelland and in RC208 at the Reese Center, Building 2.

Course Description: A standard course in college algebra. Quadratic equations; ratio and proportion; variation; binomial theorem; inequalities; complex numbers; theory of equations; determinants and matrices.

Course Purpose/Rational/Goal: The purpose of the course is to provide a fundamental background in algebra to meet the mathematics requirement for the core curriculum and to provide a basis for further study in mathematics.

Course Requirements: To maximize the potential to complete this course, a student should attend all class, take notes and participate in class, complete all homework assignments and examinations including final examination.

Course Evaluation: Your grade will be determined by the 4 in-class tests (100 points each that includes binder grade), homework assignments (200 points total), and the comprehensive final (200 points). There will be no makeups for any test. If you miss a test by a valid reason/documentation, your final exam grade will replace your missed test after being converted to a 100-point scale. (If you can make arrangements and take the test before it is handed back, you may take the same test as the rest of the class.) Also, <u>for those students with 10 points or more attendance bonus and good class participation (turning in homework assignments regularly, no cell phone*, unnecessary talking, eating, etc. during class), the lowest in-class test grade will be replaced with your final test grade after being converted to a 100-point scale</u>. (if it is higher than the in-class test.)

<div align="right">(*including other electronic devices)</div>

Homework: Homework will be assigned each lecture day. Homework from any Monday's and Wednesday's lectures will be picked up on Friday of the same week, and homework from any Friday's lecture will be picked up the following Monday. **All of your work will be shown on the homework, or it will be counted as not done.** <u>No late homework will be accepted.</u> Homework from any one week are considered as one weekly homework grade. As your semester homework grade, the top 10 weekly homework grades will be chosen.

Binder Organization Grade: Your binder will be collected each test day for the instructor to grade while you are taking the test. Binder organization grade is worth 10% of each test grade. That is, <u>your test grade consists of 90% of paper grade and 10% of binder grade</u>. Your binder should include: the syllabus, the lecture notes (filled), your graded homework assignments, worksheets, and your graded tests. All of them should be in order either chronologically or by topic. Your name and course section should be clearly written either on the front of the binder or the inside cover. Your binder is not organized if it contains loose papers.

Assessment Procedures: The summary assessment of students' mastery of the skills and concepts as specified in the expected learning outcomes will occur, with appropriate course grades assigned as follows:

720 – 800	A	In-class tests (4 x 100)	400	
640 – 719	B	Homework (10 x 20)	200	
560 – 639	C	Final exam	200	
480 – 559	D			
below 480	F		800	

Attendance Bonus Points: For each <u>perfect weekly attendance</u> (attending and participating each lecture day of the week with no tardy, stepping out during lecture, or leaving class early), you will receive one bonus point per week (15 possible bonus points for the semester). The bonus points will be added to your total points at the end of the semester.

Attendance Policy: A student who misses two consecutive weeks of class or a total of five absences may be dropped from the class. If you miss a class, you are expected to get the assignment from a classmate or the instructor. You are encouraged to come to my office during the office hours to catch up with the class. Any time you miss a class, you will receive a zero for that day's lab grade.

Student Learning Outcomes/Competencies:
Upon completion of this course and receiving a passing grade, the student will be able to:

1. Demonstrate and apply knowledge of properties of functions, including domain and range, operations, compositions, and inverses.
2. Recognize and apply polynomial, rational, radical, exponential and logarithmic functions and solve related equations.
3. Apply graphing techniques.
4. Evaluate all roots of higher degree polynomial and rational functions.
5. Recognize, solve and apply systems of linear equations using matrices.

Core Objectives:
Communication Skills:
effective development, interpretation, and expression of ideas through written, oral, and visual communication.

- Develop, interpret, and express ideas through written communication
- Develop, interpret, and express ideas through oral communication
- Develop, interpret, and express ideas through visual communication

Critical Thinking:
creative thinking, innovation, inquiry, analysis, evaluation, and synthesis of information.

- Generate and communicate ideas by combining, changing, and reapplying existing information
- Gather and assess information relevant to a question
- Analyze, evaluate, and synthesize information

Empirical and Quantitative Competency Skills:
the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.

- Manipulate and analyze numerical data and arrive at an informed conclusion
- Manipulate and analyze observable facts and arrive at an informed conclusion

Academic Honesty: You are expected to uphold the ideas of academic honesty. All work that is graded must be your own. This policy applies to all work attempted in this course. If this policy is violated, the student will receive an **F** for the assignment and will be dropped with an **F**.

Equal Opportunity: South Plains College strives to accommodate the individual needs of all students in order to enhance their opportunities for success in the context of a comprehensive community college setting. It is the policy of South Plains College to offer all educational and employment opportunities without regard to race, color, national origin, religion, gender, disability, or age.

Disability Statement: Students with disabilities, including but not limited to physical, psychiatric or learning disabilities, who wish to request accommodations in this class should notify the Special Services Office early in the semester so that the appropriate arrangements may be made. In accordance with federal law, a student requesting accommodations must provide acceptable documentation of his or her disability to the Special Services Coordinator, located in the Student Services Building, (806) 894-9611 ext. 2529) 2530 on the Levelland Campus and in rooms 809 and 811, Reese Center Building 8, (806) 885-3048 ext. 4654 on the Reese Campus.

Classroom Civility: Students are expected to assist in maintaining a classroom environment that is conductive to learning. Please be respectful of your fellow classmates. ***Turn off all cell phones, pagers, and electronic devices (Ipods, Mp3 players, CD players, etc.) before entering the room*** and refrain from reading newspapers, chewing tobacco products, or otherwise being disruptive in class.

<div align="center">

"Your cellphone cannot be seen or heard."
(*Consequence: a loss of 5 points from the upcoming test*)

</div>

Religious Holy Days: In accordance with Section 51.911, Texas Education Code, South Plains College will allow a student who is absent from class for the observance of a religious holy day to take an examination or complete an assignment scheduled for that day within seven (7) calendar days after the absence. Students are required to file a written notification of absence with each instructor within the first fifteen (15) days of the semester in which the absence will occur. Forms for this purpose are available in the Student Services Office along with instructions and procedures. "Religious holy days" means a holy day observed by a religion whose place of worship is exempt from property taxation under Section 11.20, Tax Code.

School Sponsored Events: If a student misses class because of participation (being a spectator at any sporting event does not qualify) in a school sponsored event (athletics, choir, etc.), it is the student's responsibility to:

1. Inform the instructor about the absence **prior** to the date;
2. Hand in assignments due during planned absence **prior** to the absence (unless specifically granted permission to do otherwise);
3. Arrange with instructor to take any exams that will be missed during the period of absence.

Disclaimer: The instructor reserves the right to alter any class policies as deemed necessary by the instructor, and will announce any changes in class. If a student has any questions about a change in policy ask the instructor for clarification.

Recording Lectures: To improve the teaching method, the instructor may record the lecture with or without a notice.

Dropping a Course: You have to return a completed official drop form to the Admissions and Records office, if you decide to drop the course, by:

Thursday, November 17	Last Day to Drop a Course

Then, a student will receive a W (no grade penalty).

Holiday:

Monday, September 5	Labor Day

Fall Break:

Friday, October 14	No Classes

Thanksgiving Holiday:

November 23 - 25	No Classes

Final Examinations:

Monday, December 12	8:00 – 10:00 AM	In our regular classroom (RC209)

Tentative Course Schedule (MATH1314 Fall 2016)

Week	Section Title
1	Syllabus, Review
	§1.1: Summary of Factoring Techniques (Brief Lecture)
	§1.2: Linear and Rational Equations
2	§1.2: Linear and Rational Equations
	§1.3: Complex Numbers
	§1.4: Quadratic Equations
3	§1.4: Quadratic Equations
	§1.5: Other Types of Equations
4	§1.6: Linear Inequalities and Absolute Value Inequalities
	§2.1: Basics of Functions and Their Graphs
5	**Test 1 (Unit 1)**
	§2.2: Combination of Functions; Composite Functions
	§2.3: Inverse Functions
	§2.4: Linear Functions and Slope
6	§2.5: Parallel and Perpendicular Lines; Average Rate of Change
	§2.6: Distance and Midpoints Formulas; Circles
7	§2.7: Quadratic Functions
	§3.1: Polynomial Functions and Their Graphs
8	**Test 2 (Unit 2)**
	§3.1: Polynomial Functions and Their Graphs
	§3.2: Dividing Polynomials; Remainder and Factor Theorems
9	§3.3: Zeros of Polynomial Functions
	§3.4: Rational Equations and Their Graphs
10	§3.4: Rational Equations and Their Graphs
	§3.5: Polynomial and Rational Inequalities
11	**Test 3 (Unit 3)**
	§4.1: Exponential Functions
	§4.2: Logarithmic Functions and Properties of Logarithms
12	§4.2: Logarithmic Functions and Properties of Logarithms
	§4.3: Exponential and Logarithmic Equations
13	§4.5: Gauss-Jordan Elimination
	§4.4: Systems of Nonlinear Equations
14	Review
	Test 4 (Unit 4)
15	§4.6: Determinants and Cramer's Rule
	Review for the Final Exam
