Discussions

250 points

Students will react to what they have learned in the assigned reading in the Discussion Board. Students must use their own words and not those of other students who previously posted. Students will then respond to at *least two other students*. See the Discussion Board for more details. There are no opportunities to make-up late discussions.

Annotated Bibliography

50 points

As part of the research paper, students will be responsible for selecting a research topic and compiling an annotated bibliography that displays research potential for that topic. The annotated bibliography requires a minimum of *three scholarly and two popular sources*. Scholarly sources should be found using the library's online research databases (EBSCO, etc.). This bibliography will be graded separately from the research paper and turned in well in advance. The annotated bibliography will use APA-style citation. Please reference Blackboard for further directions.

Research Paper

150 points

Students will be responsible for writing a 3-5 page research paper on a geopolitical topic in World Regional Geography. The topic must be approved by the instructor. The research paper will use APA-style citation. Please reference Blackboard for further directions and the rubric.

Exams:

450 points

All exams will be a combination of multiple choice and true/false questions. Exam IV is cumulative, meaning that it will test on material from the entire semester.

Late Work:

Late assignments will lose 50% of the individual grade after one or two days, and 90% of the total grade after that. *There are no opportunities to make up missed discussions.*

Students will be excused from taking the first three exams only in extraordinary circumstances (death in the family, hospitalization, etc.). Documentation of these circumstances must be provided. In such cases, the student must contact the instructor, either by phone or email, within two days of the exam due date. There will be no opportunity to make-up the final exam under any circumstance. A missed final exam will receive a zero grade.

Students may only make up one exam per semester. A student who misses an additional exam will receive an automatic zero.

**If a student cannot submit work via Blackboard for any reason, they must email the assignment to the instructor instead. Any assignment that is not submitted via Blackboard or email on-time will be subject to the late work policy.*

Extra Credit:

There are no extra credit opportunities in this course.
